

MULTI - PIN MOBILE CONNECTORS

Multipin Mobile Connectors

Although these connectors are generically identified as microphone connectors, they are used in a wide variety of applications which require reliable, economical multi-pin connections, particularly for rugged mobile use. The positive screw-on retaining ring, & built-in strain relief, provide reliable contact under extremes of shock and vibration.

The complete line of mobile connectors is manufactured in Japan. Design, structure and fit reflect the care and precision of which the Japanese are capable. Metal gauges, alloys and plating have been selected to meet the needs of a mobile environment.

To augment the premium line of mobile connectors, we have selected a lower cost source in Taiwan. Although somewhat different in structure than the Japanese versions, the "61" series from Taiwan provides an alternative...reliable well-designed connectors at significantly lower cost.

CORD MOUNTING RIGHT ANGLE FEMALE

No. T602RA 2 PIN
No. T609RA 4 PIN
No. T700RA 8 PIN

SCREW-ON CAP

No. PCP2

Protective closure cap for chassis socket. 3 1/2" chain with eyelet clip for screw mounting.

IN-LINE FEMALE

1-7/16" X 1/2" D, 23/32" D Ret. Ring

MALE CHASSIS SOCKET

Mounting Hole is 5/8" D

IN-LINE MALE

1-11/16" x 23/32" D

PREMIUM

Made in Japan
