

Series 804 Push-Pull Mighty Mouse Receptacle Connector

804-003 and 804-004 Ordering Information

Series 804

Front Panel Mount Jam-Nut

Series 804 Receptacle Connectors feature integral band platform for direct attachment of cable shield. Install a boot, or overmold directly onto the band platform. Or, choose an accessory thread for attaching strain reliefs and backshells. Three shell styles available including front or rear panel mount jam-nut connectors and in-line receptacles for free-hanging cables. O-rings inside the receptacle provide a dynamic, water tight seal when mated. Gold-plated spring provides secure mechanical retention and low shell-to-shell resistance for excellent EMI shielding. Crimp removable contacts are copper alloy and gold plated.
