

- Compression fittings
- Hexagon screwed bushes
- Locknuts and blanking plugs
- Flange plates
- All in brass and stainless steel
- Parallel and tapered threads

- Wide range of thread sizes
- PLUS**

- Bayonet caps, springs, fittings and adaptors
- All ex-stock in quantity
- Very competitive prices

COMPRESSION FITTINGS

Labfacility offers a range of male coupling compression fittings for positioning temperature probes, allowing the probe immersion depth to be set to suit the application.

Fittings are available in both brass and stainless steel, and with tapered (BSPT) or parallel (BSPP) threads. Select the bore size (to suit the sensor diameter) and the required mounting thread size.

Spare olives are available in packs of 10.

Most sizes of fittings are available from stock. Sizes not listed may be available to special order.

ORDER CODES – COMPRESSION FITTINGS

SIZE (Thread × bore)	STAINLESS STEEL		BRASS	
	Tapered (BSPT)	Parallel (BSPP)	Tapered (BSPT)	Parallel (BSPP)
1/8" BSP × 1mm	FC-130	–	–	–
1/8" BSP × 1.5mm	FC-131	FC-132	FC-001	–
1/8" BSP × 3mm	FC-133	FC-140	FC-002	FC-003
1/8" BSP × 1/8"	FC-134	FC-139	FC-004	FC-003
1/8" BSP × 3/16"	FC-135	FC-137	FC-008	FC-007

6mm	FO-057	FO-008
1/4"	FO-058	FO-009

THREADED ADAPTORS, LOCKNUTS & BLANKING PLUGS

Threaded adaptors (hexagon screwed bushes) are available in both brass and stainless steel to reduce large female thread sizes to suit Labfacility compression fittings or to provide a method of mounting compression fittings in sheet metalwork when used with locknuts. Select locknuts to suit male thread of adaptor.

Blanking plugs are also available. Select size to suit female thread.

All threads are parallel BSP (P).
