

Table Fan Operating Instruction:

Instructions for Safe Operation:

- Never insert fingers, pencils, or any other object through the guard when fan is running.
- Disconnect fan when moving from one location to another.
- Disconnect fan when removing grilles for cleaning.
- Be sure fan is on a stable surface when operating to avoid overturning.
- Do not use close to an open window. Rain may create electrical hazard.

Assembly of Fan Pedestal onto Fan Base:

- Insert the pedestal onto the base press the pedestal firmly into position in the base.
- Finally, locate in screws provided in the underside of the base and tighten firmly to secure the pedestal and base permanently together.

Assembly of Blade and Grilles:

- Unscrew the spinner clockwise and the nut counter clockwise then remove both of them with the plastic sleeve around motor shaft.
- Set the rear grille in the proper position with handle facing upwards.
- Screw on plastic nut tightly to attach grille.
- Discard sleeve on shaft.
- Install the blade onto the shaft until it reaches the retaining pin.
- Screw spinner on to motor shaft counter clockwise.
- Mount the front grille and fix both grilles together with clips.

Operating Instructions:

- To make/stop the fan head oscillate, push down/pull the clutch knob on the motor housing.
- To adjust vertical angle, tilt fan head up or down as desired.
- Speed is controlled by depressing the piano keys.
- Plug the power supply cord into wall outlet.

Cleaning:

- Be sure to unplug from the electrical supply source before cleaning.
- Plastic parts should be cleaned with mild soap and a damp cloth or sponge. Thoroughly remove soap film with clean water.
- To disassemble each part, reverse the order of assembly.

If the supply cord is damaged, it must be replaced by the manufacturer or services agent in order to avoid hazard.
