- Description
- Compatibility

The meter locking solution

- Kit includes a locking accessory
- Attaches to back of a 187/189 meter or 724/725 to help deter theft
- Accepts most common locks (not included)
- One year warranty

From Our Customers:

We are exceedingly impressed with our first experience with Optimum Energy. Not only did your group pull a rabbit out of your hat by getting us our order in less than 24 hrs, but we were given a courtesy phone call from our sales rep to make sure that we received our order. We will definitely, and happily, be doing business with Optimum Energy again.

Bill S., MI - Aug 2008
