

A

B-FORMAT 2002

Dwg. No.	GRS-2012-2XXX
----------	---------------

OPTIONS:

A cross-sectional diagram of a device structure. The top layer is a thin film with a wavy surface. Below it is a layer containing two circular features. These features are connected to a horizontal layer, which is in turn connected to a series of vertical bars. Two arrows point from the text 'POLARIZING FEATURES' to the circular features. Two other arrows point from the text 'INSULATING BARRIERS' to the vertical bars.

.250" Wide Terminal is standard as Shown in drawing.
.187" Wide Terminal is optional.
