industrial relays

6 A / 250 V AC

- Miniature dimensions Cadmium free contacts AC and DC coils For plugin sockets, 35 mm DIN rail mount, EN 50022 or on panel mounting • For PCB and for soldering connections - option • General purpose relays • WT (mechanical indicator + lockable front test button) - standard features of relays for plugin sockets. Relays may be provided with the test buttons type P (no latching) and plugs.

Mounting

Relays D4 are offered in versions: • standard WT (mechanical indicator + lockable front test button), for plug-in sockets. In standard version of relays (WT) is possibility self-exchange of button type T for: button type P (no latching) or plug (no manual operation). Buttons type P and plugs need to ordered saparately • for PCB (without WT) • with threaded bolt • with mounting flange in the upper wall of the cover (without WT). Relays D4 are designed for: • screw terminals plug-in sockets DZT4 and DZM4 with clip DZT4-0040 or D4 1052; plug-in sockets DZR4 with clip D4 1052, 35 mm DIN rail mount, EN 50022 or on panel mounting. Signalling / protecting modules type DM... are available with sockets DZT4 and DZM4 (see page 240) • plug-in sockets for PCB mounting DU4D with clip D4 1053 (WT) or D4 1050 (without WT) • solder terminals sockets DU4L with clip D4 1053 (WT) or D4 1050 (without WT) • direct PCB mounting.

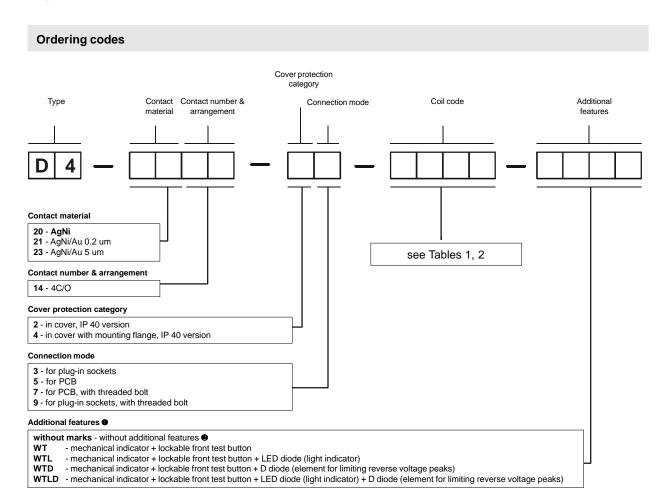

industrial relays

Contact material selection for different load types

- AgNi for resistive or inductive loads,
- AgNi/Au 0,2 um contact surface protection against oxidation during storage,
- AgNi/Au 5 um for small resistive loads in control circuits.

- **0** WT standard features of relays for plug-in sockets. WTD, WTLD only for DC coils
- Refer relays for PCB; with threaded bolt; with mounting flange in the upper wall of the cover

Test buttons type P and plugs need to ordered saparately. They substitute buttons type T. To exchange by Customer themselves. Information on buttons type P and plugs.

- Button R4P-0001-A orange colour (AC coils)
- Button R4P-0001-D green colour (DC coils)
- Plug R4W-0003-A orange colour (AC coils)
- Plug R4W-0003-D green colour (DC coils)

Note:

For relays with DC coils and additional features inclusive: **D** - D diode (element for limiting reverse voltage peaks) and **L** - LED diode (light indicator) coil supply polarity is fixed. Terminal A1 (13) "+"; terminal A2 (14) "-". Supply polarity is marked on relay cover. Colour of lockable front test button type T represents type of coil supply current: orange - AC coil, green - DC coil.

Examples of ordering codes:

D4-2014-23-5230-WTL relay **D4**, contact material AgNi, with four changeover contacts, in cover IP 40, for plug-in sockets, voltage version 230 V AC 50/60 Hz, with mechanical indicator and lockable front test button and LED diode (light indicator)
