

MODEL G3FILM - PROTECTIVE SHEET FILM

- *PROTECTS HMI OVERLAYS IN HIGHLY ABRASIVE ENVIRONMENTS*
- *PREAPPLIED LOW-TACK ADHESIVE SIMPLIFIES USE*

DESCRIPTION

The Model G3FILMs are a convenient way to protect the front of the G3 Series HMIs in dirty or abrasive environments such as foundries and concrete plants. The low-tack adhesive allows them to be applied directly to the G3's overlay, while their large size provides protection for the keys as well as the screen.

SPECIFICATIONS

1. **GENERAL:**
0.003" thick clear polyester.

INSTALLATION

1. Clean the surface of the HMI.
2. Peel away the backing from one edge of the film.
3. Attach that edge to the HMI.
4. Slowly remove the remaining backing from the film as the film is applied to the HMI.
5. Use a wiping action to minimize air pockets.
6. Press entire area to achieve best adhesion.

REMOVAL

1. Start by lifting a corner of the film with a non-metallic object.
2. Slowly pull towards other corners to remove.
