Externally Powered Breadboard, 1260 Tie Points, Transparent, ROHS

Global Specialties Economy Line solderless breadboarding systems offer students of electronics an economical choice for breadboarding without sacrificing quality. Global's economy line transparent ABS plastic sockets with phosphor-bronze contacts are mounted to anodized aluminum back plates for added durability. The transparent ABS plastic sockets are perfect for educational applications because they allow student and designers to clearly view circuit connections. Plastic feet and color-coded binding posts are included. Use Global's solderless breadboards to design test fixtures, perform lab experiments and in all areas of custom electronic design applications. Some assembly required.

Additional Info

- [Specifications](#)
- Tie Points1260
- Length8.45 in
- Width3.94 in
- Height1.4 in
- IC Capacity14
- Binding Posts2
