565 SERIES BARRIERS

PART NO.	DESCRIPTION	FOR USE WITH BEZEL SUFFIX
565-0701	5/8" END BARRIER	-211 OR -311
565-0711	5/8" CENTER BARRIER	-211 OR -311
565-0721	3/4" END BARRIER	-411 OR -511
565-0731	3/4" CENTER BARRIER	-411 OR -511

GENERAL INFORMATION:

Barriers may be used with Snap-In Bezel Mounting Switches to provide safer separation between switch caps, thereby minimizing accidental actuation of the wrong switch. "End" and "center" barrier are used if two or more switches are mounted in common hole cutout. For individual switch mounting, two end barriers are used.

INSERTION:

The barriers are held to the side of the switch by hand and inserted as one unit. The end or side barrier becomes captured upon insertion into a panel and appear to be one complete assembly.
