

TCK-50 SOLDERING KIT

768-3598

CONTAINS

TCS in handle temperature control soldering iron (200 deg. C to 450 deg. C)

ST6 Bench Stand

De solder pump

The **TCK-50** kit comprises the essential tools for the serious hobbyist or service/repair shop. The adjustable 50 watt temperature controlled TCS iron can be set precisely to match the job in hand, recognising that various components may require protection against overheating. The **ST6** bench stand accommodates the iron when not in use.

For solder removal from p.c.b.'s a "mini" desolder pump is included. Solder is not included in this kit.

Soldering irons in this kit are available with options of UK or Europlug, or silicon rubber cable.
