Typical Application

BlockMaster Electronics' new OTB-588 Series are high power, thru-panel terminal blocks available in 1-12 positions.

BlockMaster's OTB-358 series are perfect for interfacing internally wired products to the outside world. They offer a clear, protective cover to reduce shock hazard, and each terminal has a hex head screw with lock washer for convenient field wiring as shown. Suitable for industrial controls, electrical switch gear or any high-power application.
