Items 1 thru 1 displayed

Part Number : TPFLXIC005 - HexWax USB-232-DIL

USB-232 is a single chip USB to asynchronous serial interface. It greatly simplifies the connection of electronic devices to personal computer. In addition to the standard signal lines, additional control lines have custom-defined functionality. USB-232 uses the Human Interface Device (HID) USB profile. It does not require USB drivers and so is immediately plug-and-play with present and future Windows, Linux, and Mac operating systems. USB-232-DIL is the dual-in-line version suggested for evaluation purposes.

Flexipanel is a trusted 3rd Party Tool Provider
