

HL Series Line Extension

Compact, High Capacity Power Relay

Compact Power Relays Now with Optional LED Operation Indicator!

Panasonic, a worldwide leader in Relay Products, introduces the expansion of the **HL Series** Compact Power Relays! These control relays feature up to 15A* switching capacity in a compact size. With a solderless construction, this series was designed with high reliability in mind. The newest addition to the **HL Series** lineup is the LED equipped, DC-coil, plug-in type, which offers visual indication of the operating state of the relay.

**1 Form C Type Only*

Features

- Compact, High-Capacity Switching
- LED Indication and Diode
- TUV and UL/C-UL Certified
- HK Relay Substitute
- RoHS Compliant

Benefits

- Versatile Usage
- Operation Verification
- Worldwide Standards
- High Reliability

Industries

- Appliances and White Goods
- Industrial
- Telecommunications
- Automotive

Applications

- Factory Automation Equipment
- Control Panels, Power Supplies
- Vending Machines, Copiers
- Refrigerators, Washing Machines

Part Number Information

HL - - - - F

Contact arrangement

1: 1 Form C

2: 2 Form C

Terminal arrangement

H: Plug-in type

L: Plug-in type with LED indication

HP: PC board type

PL: PC board type with LED indication

HTM: TM type

Nominal coil voltage

AC 6, 12, 24, 48, 100 (100/110), 120 (110/120),
200 (200/220), 240 (220/240) V

DC 6, 12, 24, 48, 100 (100/110) V

Surge absorber

*D: with diode

Contact material

F: AgSnO₂ type

Notes: Certified by C-UL, CSA and TÜV

Please inquire about TV approved products.

*Diode type is available. (DC coil Plug-in type with LED indication only)
