| Sealing level           | IP 64                                                |
| Lifespan                | 50K cycles                                           |

## FEATURES

- High rotational life (50 000 cycles)
- Up to three sections PC support plates
- Rotary switches, tactile feedback, and solder lugs terminals available
- Tests according to CECC 41000 or IEC 60393-1
- Construction: dust proof (sealing in option)
- Industrial grade
- Material categorization: for definitions of compliance please see [www.vishay.com/doc?99912](http://www.vishay.com/doc?99912)

**RoHS**  
COMPLIANT

## 148 FEATURES

- Conductive plastic element
- Quiet electrical output

## 149 FEATURES

- Cermet element
- Low temperature coefficient ( $\pm 150 \text{ ppm}/^\circ\text{C}$ )

**DIMENSIONS** in millimeters (inches)  $\pm 0.5$  mm ( $\pm 0.02$ " )

**Single, dual or triple**

### Solder lug terminals

**Front and rear support plates**  
E = flush with board surface

### LOCATING PEGS (anti-rotation lug)

The locating peg is provided by a plate mounted on the bushing and positioned by the module sides. Four set positions are available, clock face orientation: 12, 3, 6, 9.

All 148, 149 bushings have a double flat. When panel mounting holes have been punched accordingly, an anti-rotation lug is not necessary.

| CODE | VERSION | BUSHING A, B | BUSHING F | EFFECTIVE HIGH PEG |
|------|---------|--------------|-----------|--------------------|
| A    | Ø d mm  | 2            | 2         | 0.7                |
|      | L mm    | 6.2          | 6.2       | -                  |
| B    | Ø d mm  | 2            | 2         | 0.7                |
|      | L mm    | 7.75         | 7.75      | -                  |
| C    | Ø d mm  | -            | 3.5       | 1.1                |
|      | L mm    | -            | 13.5      | -                  |

Locating pegs are supplied in separate bags with nuts and washers

### RSID OPTION: ROTARY SWITCH MODULES

- Rotary switches
- Current up to 2 A
- SPDT: single pole, changeover switch in CCW position - 3 pins
- Sealing IP60

#### MODULES: RS ON/OFF SWITCH RSI CHANGEOVER SWITCH

The position of each module is free.

RS and RSI rotary switches are housed in a standard 148, 149 module size 12.7 mm x 12.7 mm x 5.08 mm (0.5" x 0.5" x 0.2"). They have the same terminal styles as the assembled electrical modules.

An assembly can comprise 1 or more switch modules.

Switch actuation is described as seen from the shaft end.  
D: means actuation in maximum CCW position

The switch actuation travel is 25° with a total mechanical travel of 300° ± 5° and electrical travel of electrical modules is 238° ± 10°.

#### RSID Single Pole CHANGEOVER

In full CCW position, the contact is made between 3 and 2 and open between 3 and 1. Switch actuation (CW direction) reverses these positions.

The shaft length is always measured from the mounting face. Standard shafts are designed by a 3 letters code (3 digits). Shafts slots are aligned to  $\pm 10^\circ$  of the wiper position. All standard shafts are slotted except flattened and splined, see exceptions for bushing.

**FLATTED SHAFT**

Bushing: F  
Shaft: GHF

Bushing: A  
Shaft: BGF

# DETENT OPTION (haptic technology)

Detent option is a positive tactile feedback.  
The detents mechanism is housed in a standard P11 module.  
Up to 21 detent positions available.

Available: CV1M  
CV21

Mechanical endurance: 10 000 cycles

## ORDERING INFORMATION (first order only for special code creation)

**CV1M**

**CV1M** 1 detent at half travel  
**CV21** 21 detents

## Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Hyperlinks included in this datasheet may direct users to third-party websites. These links are provided as a convenience and for informational purposes only. Inclusion of these hyperlinks does not constitute an endorsement or an approval by Vishay of any of the products, services or opinions of the corporation, organization or individual associated with the third-party website. Vishay disclaims any and all liability and bears no responsibility for the accuracy, legality or content of the third-party website or for that of subsequent links.

Vishay products are not designed for use in life-saving or life-sustaining applications or any application in which the failure of the Vishay product could result in personal injury or death unless specifically qualified in writing by Vishay. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
