Adhesive Backed Cord Clips

The fastest, most efficient way available to organize wires, cords and cables. Just remove clips from adhesive strip of two and stick into place. UL recognized nylon clips adhere to any smooth, clean, hard surface, including wood, plastic and metal. Wires, cord or cables slip in or out easily, yet are retained securely. Smooth, rounded corners and edges protect wires and installers' hands. An aggressive rubber-based adhesive provides high adhesion. Works in a service temperature range 0°F - 120°F continuous.
