

Wire Strippers
T Series

All Ideal T-strippers have the following features: Precision ground knife type blades that assure clean accurate stripping; compact size, lightweight, cushioned plastic grips ensure smooth operation and reduce operator fatigue. Sturdy steel construction ensures long life. Black oxide finish resists corrosion. Convenient loop-hole simplifies wire looping for screw terminal connections. Built-in wire cutter. Spring loaded for automatic opening. Painted wire gauge. Plier nose for simple gripping or tightening jobs. Model Super T-6 is fitted with static dissipative grips.
