

Board-to-Wire Swing-Lock Connector for Low-Profile Power Source

DF61 Series

■ Features

1.Reinforced Swing Lock Structure

Our unique swing-lock structure cradles the wire side plug and resists the plug from becoming disengaged due to handling strain or loads.

2.Header Lock Improves Plug Retention

During mating, the header lock engages with the plug assembly. The lock is reinforced with metal which adds strength to the lock and increases the retention between the header and the plug.

3.High Current of MAX 4 Amps (AWG22)

A highly conductive material is used for the contacts. The material provides for a high current flow by reducing the contact resistance.

4.Compact Size- High Voltage

The compact 2.2 mm pitch connector has a voltage rating of 350V due to the long creep distance.

5.Solder Wicking Prevention

Header is molded in one piece. This ensures a tight fit between the contact and the header and prevents solder wicking.

■ Applications

Digital cameras, digital video cameras, LED lights, laptop computers, tablet computers, portable devices, power supply equipment, etc.

Swing-Lock Structure Illustration

The protrusion on the bottom side of the socket fits into a corresponding recess on the header. This aligns the socket into the correct mating position.

Before Mating

Reinforced with Metal

The metal fitting is partly molded in the header's housing lock.

After Mating

The Header pushes down the protrusion of the socket and locks it in place.

Tensile strength of the cable:
10N or greater

Maximum Creep Distance

An integrated wall between the contacts maximizes the creepage distance for higher voltage capabilities.

■Product Specifications

| | | | | | |
|---------|----------------|--------------------------------------|---------------------------------------------------------|-------------------|----------------------|
| Ratings | Current rating | 3.2A (with AWG26) 4A (with AWG22) | Operating Temperature Range Operating Humidity Range | -35~85℃ 20~80% | (Note 1) |
| | Voltage rating | AC/DC 350V | Storage Temperature Range Storage Humidity Range | -10~60℃ 40~70% | (Note 2) (Note 2) |

| Items | Specifications | Conditions |
|------------------------------|-------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| 1. Insulation resistance | 1000MΩ or greater | Measured at DC 500V |
| 2. Withstanding voltage | No flashover or breakdown | AC500V applied for one minute |
| 3. Contact resistance | 10mΩ or less | Measured at 20mV or less, 1mA |
| 4. Vibration resistance | No electric outage of 1μs or more | Frequency 10-55Hz, half amplitude 0.75 mm, 10 cycles for each of 3 directions |
| 5. Shock resistance | No electric outage of 1μs or more | Acceleration 490 m/s ² , 11ms; half sin wave: 3 each for 3 directions |
| 6. Humidity resistance | Contact resistance 20mΩ or less, insulation resistance 500MΩ or greater | Temperature 40 ± 2℃, humidity 90-95%, left for 96 hours |
| 7. Temperature cycle | Contact resistance 20mΩ or less insulation resistance 500MΩ or greater | 5 cycles (-55℃: 30 minutes → 5-35℃: 2-3 minutes → 85℃: 30 minutes → 5-35℃: 2-3 minutes) |
| 8. Insertion/extraction life | Contact resistance 20mΩ or less | Insertion/extraction: 30 times |
| 9. Solder heat resistance | No melting of resin part affecting performance | Reflow: Per recommended temperature profile Hand solder: Manual soldering iron 350±10℃ for 3 seconds |

(Note 1) Includes temperature elevation by conduction.

(Note 2) The term “storage” refers to the long-term storage conditions of unused connectors before PCB mounting. The operating temperature range applies to connectors in non-conduction state after PCB mounting or those in temporary storage during transportation, etc.

(Note 3) The above specifications are representative for this series. Please refer to “delivery specifications” for official individual agreement.

■Materials

| Product | Part | Material | Treatment | Specification |
|---------------|-----------|--------------|------------|---------------|
| Header | Insulator | LCP resin | Red | UL94V-0 |
| | Contact | Brass | Tin plated | — |
| Crimp Socket | Insulator | PBT | Red | UL94V-0 |
| Crimp contact | Contact | Copper Alloy | Tin plated | — |

■Product Number Structure

See Pages 4-6 of this catalog to select and order specific items.

●Header

DF 61 - * P - 2.2 V

① ② ③ ④ ⑤ ⑥

■Straight Header (SMT)

■Recommended PCB Dimensions(t=1mm)

[Specification No.]

(21): Tin plated, emboss package, mold color: red
(22): Tin plated, emboss package, mold color: yellow

Unit : mm

| Product Number | HRS No. | No. of contacts | Color |
|------------------|-----------------|-----------------|--------|
| DF61-2P-2.2V(21) | CL666-5001-1-21 | 2 | Red |
| DF61-2P-2.2V(22) | CL666-5001-1-22 | 2 | Yellow |

Note: For embossed package products, please order in full reel quantities. (1 reel = 3000 pcs.).

●Reel Dimensions

■Socket

[Specification No.]
(01): 1,000 connectors per pack, mold color: red
(02): 1,000 connectors per pack, mold color: yellow

Unit : mm

| Product Number | HRS No. | No. of contacts | Color |
|------------------|-----------------|-----------------|--------|
| DF61-2S-2.2C(01) | CL666-5002-4-01 | 2 | Red |
| DF61-2S-2.2C(02) | CL666-5002-4-02 | 2 | Yellow |

Note: Please order by full packs (1,000 pcs./pack)

■Crimp contact

[Specification No.]

None: 20,000 contacts per reel

| Product Number | HRS No. | Type | Quantity | Treatment |
|----------------|-------------------|--------------|--------------------------|------------|
| DF61-2630SCF | CL666-5003-7-00 | Reel contact | 20,000 contacts per reel | Tin plated |
| DF61-2226SCF | Under development | Reel contact | 20,000 contacts per reel | Tin plated |

(Note1) Please order in full reel quantities. (1 reel = 20,000 pcs.).

●Applicable Wire (Tin plated soft copper wire)

| Conductor Size | Coating Diameter |
|----------------|------------------|
| AWG# 26-30 | φ 0.7mm - 1.1mm |

Note: Please consult with our a Hirose sales representative when using wires other than those recommended below.

●Applicable wires: UL10368 AWG# 26 and AWG# 29

●Strip Length 1.3 - 1.7mm

■Applicable Crimping Tools

| Types | Product Number | HRS No. | Applicable Contact |
|-----------------|-------------------|-----------------|--------------------|
| Applicator | AP105-DF61-2630S | CL901-4620-7-00 | DF61-2630SCF |
| Press Unit | CM-105 | CL901-0005-4-00 | — |
| Hand Tool | Under development | | DF61-2630SCF |
| Extraction Tool | DF-C-PO(B) | CL550-0179-2-00 | DF61-2630SCF |

Note: Problems resulting from the use of non-authorized tools will not be warranted.

Operating Precautions

| | |
|------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>1. Recommended Temperature Profile (Lead-free soldering possible)</p> |  <p>[Applicable Conditions]</p> <ol style="list-style-type: none"> 1. Peak Temperature: MAX 250°C 2. Heated Area: 220°C or above, within 60 sec. 3. Pre-heating Area: 150-180°C, 90-120 sec. 4. Number of Operation: Twice or less <p>* The contact lead area was measured.</p> <p>The conditions may change depending on the types and manufacturers of cream solder, PCB size, and conditions of other materials used for soldering. Please fully check the soldering condition before use.</p> <p>[Remarks 1] This temperature profile is our recommended value.</p> |
| <p>2. Recommended Hand Solder Conditions</p> | <p>Soldering iron temperature: $350 \pm 10^{\circ}\text{C}$, soldering time: within 3 seconds</p> |
| <p>3. Recommended Screen Thickness, Aperture Opening Rate (Pattern Area Ratio)</p> | <p>Thickness 0.1 mm, aperture opening rate: 100%</p> |
| <p>4. PCB Warpage</p> | <p>Max 0.02 mm at the center of connector with the both edges of the connector as the baseline</p> |
| <p>5. Cleaning Condition</p> | <p>Cleaning with IPA is possible. (Cleaning is not recommended as it may change the feel of insertion/extraction, etc. Please consult with us when using other types of cleaning agents.)</p> |
| <p>6. Precautions</p> | <ul style="list-style-type: none"> ■ In order to maintain the performance reliability, do not insert the crimp contact into the crimp socket at a slant angle. ■ Insertion/extraction of the connector while not mounted to the PCB may cause breakage or deformation to the contact. ■ Extracting the connector by holding the cable could result in a breakage. ■ Do not apply flux at the time of hand soldering, as it may result in flux rise. ■ This product may have slightly different hue on molded items, however, they do not affect the product performance. ■ See the separate "DF59 Insertion/Extraction Procedure Manual" for handling precautions at the time of insertion and extraction. |

7. Mating/Un-mating Mating Operation

- (1) Start by placing the connector against the header lock at an angle. If the plug is not started at an angle, it will cause damage to the connector.

- (2) Then, in a slight, rotating movement, push the front section of the plug down.

- (3) Keep pressing down until a "click" feeling is sensed. The connector is now fully and properly mated.

Un-mating Operation

- (1) Begin by lifting up on the front section of the plug.

- (2) Continue to rotate it upwards and release the rear lock portion.

- (3) Once the rear, or reinforced lock, is released the plug will come free from the header and complete the un-mating sequence.
