

TCSD SERIES

TIGER EYE™ IDC SOCKET CABLE

Requires -DXX

A schematic diagram of a four-core cable. It shows four vertical conductive cores. A common ground shield, represented by a thick horizontal bar with upward-pointing arrowheads at each end, encloses all four cores. The shield is connected to ground at both ends, indicated by ground symbols.

See EHT Section

- Ejector headers
- Locking clips
- Strain relief option

See EHT Series.
