

CTC500B Tool Cabinet

This solidly built mobile unit will form the base of a useful storage combination.

The Clarke CTC500 offers ample, and safe, storage space for all your hand tools and workshop kit. Use it with one of the Clarke tool cabinet top boxes to best suit your specific needs (see below). Locking drawers means your valuable tools are kept safe too.

The friction slide drawer runners ensure trouble free long life and the wheels make the unit easy to move into position, two are fixed and two swivel and are fitted with brakes to keep the tool chest still.

- Robust steel construction throughout with a tough red powder coat finish.
- Single front end lock with 2 keys for internal concealed locking bars.
- Ball bearing drawer runners for smooth sliding action
- Full width drawer handles able to accommodate identity labels.
- 3" castor wheels (2 fixed & 2 swivel locking)
- Dimensions - (WDH) 675x335x770mm. Width dimension includes handle. Cabinet top width is 610mm
- Can be used with CTC900 9 drawer tool chest.
