Blue Dissipative ESD Protective Bottles

Features:

- **Dissipative Bottles Made by R & R Lotion**
Permanently dissipative to protect your valuable static sensitive printed circuitry
- **Low Tribo-Charging**
Will not easily produce a charge when moved or lifted
- **Square Shape**
Provides stability and saves storage space
- **Available in Four Pump Styles**
Several styles allow customization of your container requirements

Specs:

- **Resistance Point to Point (RTT)**
 10^9 to 10^{10}

P / N	Description
51054	One touch, blue, dissipative, 177 mL
51055	Pure touch, blue, dissipative, 177 mL
51056	One touch, blue, dissipative, locking cap, 177 mL
51057	Pure touch, blue, dissipative, locking cap, 177 mL

Description

Charleswater Europe's ESD Fingertip Pumps are dispensers that can be used for liquids needed at a workbench. They are available in either black conductive or blue dissipative HDPE 177mL bottles. The One-Touch Pump dispenses only the desired fluid into the reservoir in the cap. the Pure Touch Pump also inhibits cross-contamination by preventing fluids from returning into the dispenser. These fingertip pumps are antistatic and low tribocharging for minimal charge generation. The stainless steel pump is non-corrosive and the precision valve prevents contamination and spills.

	Dissipative Bottles	Conductive Bottles
Rp:	$10^9 - 10^{10}$ Ohms	$10^2 - 10^6$ Ohms

Item #	Description
51050	One Touch, Black, 177 mL, Conductive
51051	Pure Touch, Black, 177 mL, Conductive
51052	One Touch, Black, 177mL, Conductive, Locking Cap
51053	Pure Touch, Black, 177 mL, Conductive, Locking Cap
51054	One Touch, Blue, 177 mL, Dissipative
51055	Pure Touch, Blue, 177 mL, Dissipative
51056	One Touch, Blue, 177mL, Dissipative, Locking Cap
51057	Pure Touch, Blue, 177 mL, Dissipative, Locking Cap
