Dialight LED Back-up Lamps

The 46 series LED Back-up lamps were developed by Dialight for bus applications where increased safety and reliability are a major concern. These lamps were designed to conform to all of the FMVSS requirements both existing and new vehicle designs.

The 46 series back-up lamps use Dialight's unique durable potted construction which results in a superior lamp seal. The use of integral wiring with sealed connectors results in unsurpassed lamp reliability and resistance to corrosion.
