

Eco-Shower Degreaser

1500

Maintenance cleaners clean oil and contaminants off of metal parts, printed circuit boards, barcode instruments, switch boxes, gear boxes, and engines.

Techspray has produced Blue Shower maintenance cleaners for over 30 years, making Blue Shower a staple in maintenance departments all over the world!

Techspray offers a variety of solvents and waterbased cleaners that allow customers to match the right products with their cleaning needs. Choosing a strong, high quality cleaner saves time and money. Grease and oil flow right off, reducing the time and materials needed to scrub off stubborn soils.

Eco-friendly & non-flammable concentrated degreaser

Powerful degreaser in the tradition of Techspray's Blue Shower cleaners. Innovative formula uses naturally-based ingredients like citrus and soy oils to soak in and quickly cut through oil and grease.

Use full strength for heavy grease or dilute with water for general cleaning (see below for dilution instructions). Ideal for cleaning tools, parts, shop equipment, motors, and industrial working surfaces. Leaves high-gloss finish, so ideal for stainless steel.

Convenient pre-saturated wipes available in a pop-up dispenser. Wipe material is low linting with patented dual-texture that has scrubbing surface on one side, wiping surface on the other.

One quart (with a trigger sprayer) and one gallon containers are ideal for surface and tool cleaning. Packaging is selected to be easily recyclable. Quart labels made of recycled paper, and cartons made of 40% recycled material. Trigger pump on quart eliminates the need for propellants, which can have a global warming impact.

Eco-Shower Cleaner is fully compliant with CARB (California Air Resource Board) requirements.

Also compliant with European REACH (Registration, Evaluation, Authorization & Restriction of Chemicals) and WEEE (Waste Electrical and Electronic Equipment Directive) initiatives. It does not contain RoHS (Restriction of Hazardous Substances) restricted substances, SVHC (Substances of Very High Concern) list substances, or halides.

- Clean heavy oil & grease
- Non-flammable
- Non-ozone depleting
- Concentrated and dillutable
- Non-corrosive, moderate pH
- Safe on most plastics and painted surfaces
- Biodegradable
- Low VOC, zero GWP

1 units/case

Instructions

Spray and saturate the soiled area. Let soak for 30-60 seconds depending on thickness of the grease. Using a lint-free wipe (we recommend Techspray 2364-50 or 2365-300 wipes), wipe lightly at first to allow cleaning agent to break down residues. Continue to wipe in a circular motion until the grease or oil is fully removed. For thick greases, reapplication may be needed. On walking surfaces, mop thoroughly after cleaning. Material is easily rinsed by wiping with water dampened cloth. Dispose of soiled wipe as appropriate depending on the type of material removed.

Chemical & Physical Properties	
Appearance	Clear, mobile liquid
Odor	Citrus odor
Flash Point	none
VOC (EPA)	3.24%
VOC (CARB)	3.24%
