

PowerCat Euromod RJLP Module, 568B – White

The Euromod modular system provides a flexible and versatile method of installation. This modular system offers a wide range of wallplates and modules that allow the user to install as many data outlets as required. The modules are fully assembled units featuring the Molex Premise Networks low profile Cat 5E RJLP connector and a 25 x 50mm fascia, shutter and spring assembly.

Molex Premise Networks unique patented RJLP RJ45 connector is engineered to meet the highest performance standards in the industry and offers a low profile, space saving design that enables installation in shallow backboxes and trunking. Suitable for high speed data transmission the PowerCat RJLP RJ45 connector was designed to meet the requirements of the Cat 5E standard which demands compliance with the PowerSum principle of measurement and test.
