

## Datasheet

**Product Name:** MK9SST

### **Features & Benefits:**

With its lightweight, ergonomic design, the MK9SST is an ideal tool for applying the MBT series stainless steel cable ties. Although it is used for applying stainless steel cable ties, the MK9SST enables work to be carried out without operator fatigue. For easier handling the tensioning is fully adjustable by means of a quick two level control with an additional fine setting. This feature means that damage to the bundled materials is easily avoided. The cable ties are automatically cut off flush with the head when the preset tensioning level has been reached.
