

Notepad Artwork

SPECIFICATIONS:

Material Properties:

- Base: Weight 80 gms/m²
- Thickness: .004" (.1 mm)
- Size (W x L): 4" x 3"
- Resistance: 1×10^6 to $< 1 \times 10^{11}$ ohms per ANSI/ESD STM11.11
- Class 10,000 cleanroom compatible
- Silicone free
- 50 Sheets per pad
- ESD Protective Symbol printed in upper right hand corner
- Low strength adhesive along the top of the back on each sheet
- Made in Canada

Item	Description
16097	Self-Stick Notes - Static Dissipative

"It should be understood that any object, item, material or person could be a source of static electricity in the work environment. Removal of unnecessary nonconductors, replacing nonconductive materials with dissipative or conductive materials and grounding all conductors are the principle methods of controlling static electricity in the workplace, regardless of the activity." [ESD Handbook ESD TR20.20 section 2.4 Sources of Static Electricity]
