

2 Post Standard Equipment Rack

specifications

The data equipment rack shall be constructed of extruded aluminum or steel and capable of accepting 19" wide EIA equipment. The telecommunications rack shall be constructed of extruded aluminum and capable of accepting 23" wide telecommunications equipment. Rack construction method shall ensure an electrically bonded structure for ease of grounding. The 3" channel rack shall be UL listed for 1000 lbs. load rating and the 6" channel rack shall be UL listed for 1500 lbs. load rating. The equipment mounting rails shall be double-sided #12-24 EIA universal mounting hole spacing. The equipment mounting rails shall include printed rack space identification on the front and back and be numbered up. The channel of the rack shall be capable of mounting NetRunner™ or PatchRunner™ Vertical Cable Managers. 24 #12-24 mounting screws shall be included with the rack.

technical information

Dimensions:	R2P96 – #12-24 threaded equipment mounting rails 96.1"H x 20.3"W x 3"D (2441mm x 514mm x 76mm), 52 RU
	R2P – #12-24 threaded equipment mounting rails 84.0"H x 20.3"W x 3"D (2134mm x 514mm x 76mm), 45 RU
	R2P48 – #12-24 threaded equipment mounting rails 48.0"H x 20.3"W x 3"D (1219mm x 514mm x 76mm), 24 RU
	R2P6S – #12-24 threaded equipment mounting rails 84.0"H x 20.3"W x 6"D (2134mm x 514mm x 152mm), 45 RU
	R2P6S96 – #12-24 threaded equipment mounting rails 96.1"H x 20.3"W x 6"D (2441mm x 514mm x 152mm), 52 RU
Packaging:	R2PW – #12-24 threaded equipment mounting rails 84"H x 24.25"W x 3"D (2441mm x 616mm x 76mm), 45 RU
	Includes right and left mounting rack channels, top and bottom brackets, assembly hardware with paint piercing washers and anti-oxidizing paste for complete rack bonding

key features and benefits

Rack spaces	The 8' rack with 52 rack spaces allows more equipment in the same footprint to maximize real estate for lowest cost of ownership
Extruded aluminum construction	Designed to be lightweight and durable for easier deployment and reduced transportation costs; UL listed for 1000 lbs.
Heavy duty steel construction	6" channel rack designed for higher weight capacity for large equipment; UL listed for 1500 lbs.
Printed rack space identification	Allows for quick location of rack mounted equipment for faster installation and less rework; see individual customer drawings for specific rack RU numbering
Paint piercing washers	Fully electrically bonds rack components to simplify grounding process for improved network reliability
Double-sided #12-24 mounting holes	Provides ability to mount equipment on both sides of the rack channel for improved system flexibility

applications

Panduit 2 post standard equipment rack provides a reliable foundation for mounting telecommunication and data center equipment. The rack can be used to manage high performance copper and fiber patch cables. This modular rack system is compatible with

Panduit horizontal and vertical cable managers. The 2 post standard equipment rack is part of a complete rack and cable management system that manages, protects, and showcases your network investment.
