Work Stations

The Focus-Lite™ is the quick, efficient way to shrink all types of heat shrink tubing. For use on all types of wire harnesses, crimps and splices. Shrinks in a fraction of the time of traditional heat guns. Choose from 1", 2.5", 8", & 15.5" Shrink lengths. Shrink time is the same for all lengths! See the graph below for an average cost savings based on 10,000 harnesses/shrink operations per week or click on the [Cost Savings](#) link below for your specific savings.

~FLG3 Hand-Held Model is now
available! Completely portable
and mobile for board mounted
harnesses and tight spaces.

- ◆ Less operator fatigue
- ◆ Zero noise levels
- ◆ Minimal heat at work station
- ◆ Long life
- ◆ Ends heat gun failures
- ◆ Low maintenance
- ◆ Better process control
- ◆ Consistent shrinking
- ◆ No irregularities
- ◆ Energy efficient
- ◆ Uses less energy
- ◆ 300 vs. 1,560 watts

Example of machine cost payback:

Uses standard 120V

Standard Models:

Focus-Lite™ 10* - Effective shrink length up to 1.0"

Focus-Lite™ 30* - Effective shrink length up to 2.5"

Focus-Lite™ 80* - Effective shrink length up to 8"

Focus-Lite™ 160* - Effective shrink length up to 15.5"

*Up to 5/8" cable diameter

Focus-Lite™ G2 - Effective shrink length to 3.0", up to 1.5" diameter

Focus-Lite™ G3 hand-held unit - Effective shrink length to 1.375", Up to 5/8" cable diameter
