Wiha SoftFinish® electric slimVario.

For all work on or around electrical components up to 1000 V AC.

2831... SoftFinish® electric slimVario interchangeable bit.
Insulation 1000 V AC, VDE-tested and with GS mark.

Bit: High quality chrome-vanadium-molybdenum steel, through hardened, black finish. The integrated protective insulation is directly moulded onto the bit and completely integrated in the front area.

Standards: Manufactured acc. to IEC 60900:2004.

Application: For all work on or around electrical components up to 1000 V AC.

Extra: The particularly slim diameter of the bit with integrated protective insulation enables low lying fastening elements and spring terminals to be reached and operated easily. The slim form of the bit allows easy reaching of the screws below the finger and hand guards.

Note: 6 mm VDE interchangeable bits should only be used with the 2831-00 bit holder.

Wiha SoftFinish® electric slimVario.

- VDE exchange bits plus SoftFinish® electric hand-held screwdriver for the perfect screwdriver
- Compact sets with six different exchange bits (length 90 mm)
- Sets are 35% lighter than comparable sets
- Maximum service life due to locking mechanism of long-life metal parts
- Precise work: additional guidance with free-running sleeve
- Protective insulation is completely integrated in the front area of the bit
- Particular slim diameter of 38 mm allows easy access to low lying fastening elements or spring terminals
- Individually tested in water bath at 10,000 volts according to IEC 60900:2004

2831-00 SoftFinish® electric slimVario bit holder with handle, 6.0 mm.

Blade: Chrome-vanadium steel, through-hardened. Insulation moulded directly onto blade.

Handle: Wiha SoftFinish® electric multi-component handle with roll-off protection.

Bit holder: ClicFix quick release holder securely locks bits. Only for 6 mm VDE interchangeable bits.

Application: Compact screwdriver together with VDE interchangeable bits.

Note: Not for use with bit forms C 6.3 and E 6.3.
