

PRODUCT SPECIFICATION

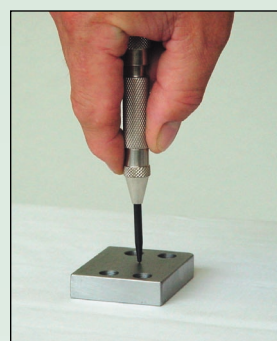

Automatic centre punch

The automatic centre punch is a selfstriking tool, used for fast and precise marking. It is mainly used in precision mechanics, steel engineering, by tool makers and for similar applications. The striking force is continuously adjustable. It comes packed in a plastic pouch.

- ▶ available in 3 sizes
- ▶ automatic striking (selfstriking)
- ▶ continuously adjustable striking force
- ▶ one hand operation
- ▶ striking pin exchangeable
- ▶ material: special tool steel, nickelplated surface

manner of operation

- set pin on right position
- press down the shank, the spring releases the pin, and pin impacts
