

PACKAGING SPECIFICATION

1. SCOPE

This specification covers the materials and standard method of packaging for the connector housing listed in Table 1.

2. MATERIAL

2.1 Carton box P/N 782457-1 or P/N 782457-2

2.2 Plastic bag P/N 782503-1

2.3 Carton pad P/N 782506-1

2.4 Transparent self-adhesive tape

2.5 Water

2.6 Self-adhesive label P/N 785076-1

3. PACKAGING

3.1 Place the plastic bag into the carton box

3.2 Place the quantities of housings listed in the Table 1 into the plastic bag

3.3 In order to maintain housing humidity, a proper water quantity to guarantee a 2-2.5 % of Moisture must be added into the plastic bag for P/Ns indicated in Table 1

3.4 Close the plastic bag by hot welding

3.5 Place the carton pad over the closed plastic bag

3.6 Close the lids of the carton box and secure them by the transparent self-adhesive tape

4. PACKAGING

4.1 Mark required information (AMP P/N, q.ty/box according to Table 1, date code) onto the self-adhesive label and stick it in the proper location on the carton box

4.2 The box is now ready for stock

4.3 For a box composition, when shipped, follow instructions of AMP Spec. 107-20131

Table 1

AMP P/N	Description	Carton box P/N	Q.ty/box	Water added
282240-...	5 pos. microrelay housing	782457-2	1000	Yes
281988-...	5 pos. microrelay modular housing	782457-1	500	Yes
281991-...	1 pos. Positive Lock MK I housing	782457-2	4500	Yes
282533-...	1 pos. Standard Power Timer housing	782457-1	3500	No
281734-...	3 pos. Positive lock .312" srs. Housing	782457-2	1300	Yes
282539-...	5 pos. Junior Power Timer housing	782457-2	1800	Yes
282009-...	3 pos. Positive lock MK I housing	782457-2	1600	Yes
282011-...	4 pos. Positive lock MK I housing	782457-2	1300	Yes
182646-1	Coupling ring size 13	782457-2	4000	Yes
284266-2 to -4	Retainer + Housing 21 pos. DIA System	782457-2	250+250	Yes
183102-...	Couple ring size 17	782457-2	500	Yes
