Accessories

General

Line Cord — Part No. GA400
7 1/2 foot, 3-conductor line cord to mate with models within the catalog. 1250 watt, 10A - 125 VAC SVT, Black, UL, CSA.

Not recommended for patient care applications due to leakage current of the line cord.

### Insulating Boot — Part No. FA601
Plastic shroud to cover back of IEC connector style filters with style 1 terminals for EC, ED, EEA, EEB, EEJ, EF Series.

J Series - Voltage Selecting and Fused Connector

JA500

Tool — Part No. JA500
Extractor tool for removal and insertion of voltage selector card in J series.

JA302

Voltage Card — Part No. JA302
Two-voltage selection card for use with J series. Marked 115V/230V.

Voltage Card — Part No. JA304
Four-voltage selection card for use with J series. Marked 110V/120V/220V/240V. One JA304 comes standard with each J series module.

L Series - Power Entry Modules

Fuseholder — Part No. LA200
Accommodates one 1/4" x 1-1/4" North American fuse for L series only.
Fuseholder — Part No. LA201
Accommodates one 5 x 20mm metric fuse for L series only.

Voltage Wheel — Part No. LA302
Two-voltage selection drum for use with HL4 and DL4 models. Marked 115V/230V.

Voltage Wheel — Part No. LA303
Three-voltage selection drum or use with HL4 and DL4 models. Marked 110V/220V/240V.

Voltage Wheel — Part No. LA304
Four-voltage selection drum for use with HL4 and DL4 models. Marked 100V/120V/220V/240V. One LA304 comes standard with each HL4 and DL4 model.
Blank — Part No. LA400
Blank to replace switch in single voltage selection models. DL1 and HL1 models.

Insulating Boot — Part No. LA601
Plastic shroud to cover back of EDL and EHL power entry modules preventing inadvertent access.

Accessories (Continued)

M Series - Power Entry Modules

Assembly — Part No. MA100
Power interconnect assembly for voltage select models of
the M series. Simplifies connection of power entry module
to power supply. Designed for use with either filtered or
unfiltered voltage selection models. 8.5" wire leads.

Part No. MA101 - Plug Only
Part No. MA102 - Pins on Strips
Part No. MA103 - Pins on Reel (7,000 pins)
**Part No. MA104** - Pins Only

Assembly — Part No. MA400
Medical safety bracket kit for use with HM models. Bracket
allows customer to undergo UL544 abnormal condition
testing without removal of fuse(s) in power entry module.

Part No. MA401 - Bracket Only

**Part No. MA402** - Standoff Only

Voltage Card — Part No. MA302
Two-voltage selection capability for use with M series
power entry modules. Marked 120V/240V. One MA302
comes standard with two-voltage M series modules.

Voltage Card — Part No. MA304
Four-voltage selection capability for use with M series
power entry modules. Marked 100V/120V/230V/240V.
One MA304 comes standard with four-voltage M series
modules.

Insulating Boot — Part No. MA601
Plastic shroud to cover back of VM and EFM power entry
modules preventing inadvertent access to tracings.

Part No. MA601 - fits M4S versions
Part No. MA602 - fits M1S versions
Part No. MA603 - fits M4 versions
**Part No. MA604** - fits M1 versions

P Series

Assembly — Part No. PA100
Power connector assembly for voltage select modules of
the P series. Simplifies the connection of power entry mod-
ule to power supply. Designed for use with either filtered or
unfiltered modules. Includes 6 inch wires (4).
Part No. PA101 - Plug Only
Part No. PA102 - Pins Only
Part No. PA105 - Same as PA100, except has 2 wires for
no voltage selection models

PA101

J Extender — Part No. PA400
Extends P series module to fit J panel cutout. Cannot be
used with B shield.
L Extender — Part No. PA410
Extends P series width to fit L panel cutout (use two per
module). Unshielded versions only.
C Extender — Part No. PA420
Extends P series height by .20"

Power Entry Modules
