2200L 22-inch Desktop Touchmonitor

2200L with zero-bezel APR shown above: Click and drag to rotate; space bar to stop/start rotation; right click to zoom.

[Click here for additional images of the 2200L](#)

Consisting only of a glass overlay mounted in front of the LCD panel, the 2200L zero-bezel Acoustic Pulse Recognition (APR) delivers benefits that combine the ultimate in optical qualities with a stylish, easy to clean, seamless front face.

The 2200L is available in both zero-bezel APR, which senses touch on the display by recognizing the unique pattern of sounds, and standard-bezel IntelliTouch surface acoustic wave touch technologies.

Wide-aspect displays like the 2200L are easier to use and incorporate into the workplace than traditional desktop touchmonitors. Wide-screen format displays allow extra content on screen and are ideal in corporate environments for spreadsheets, publishing, and dual-window applications.

Typical applications include point-of-sale (POS), point-of-information (POI), point-of-service, interactive digital signage, loyalty systems, kiosk information systems, light industrial shop-floor automation and home control.
