COMPRESSION NUT

SEALING RING

FINGER INSERT

BODY INSERT

O-RING

CLEARANCE HOLE

- Provide the durability of a nickel-plated brass enclosure with **drastically lower** installed cost and more secure wire gripping with nylon finger design.
- HEYBrid Cordgrips make it possible to insert different diameters of cable in the same cable gland easily, flexibly and with a good seal.
- Movable articulated fingers provide large clamping and sealing areas for secure and flexible everyday use.
- When tightening the compression nut of the cordgrip, the segmented finger design compresses around the gland and wire to provide a torsion proof seal.
- Nickel-Plated brass construction for superior protection of flexible cables.
- Nickel-Plated finish over brass provides excellent corrosion resistance and durability.
- IP 68 rated.
- For use in clearance or threaded holes.
- Multiple sizes for flexible cord diameters ranging from .04" (1,0 mm) to 2.17" (55,0 mm).
- We recommend using the smallest cordgrip that accommodates your cable size.
- Sealing gland is molded in Thermoplastic Polymer Elastomer (TPE) material.
- Locknuts not included. For metal locknut specifications or to order locknuts separately, see section 3 in Heyco's Power Components Catalog or go to [www.heyco.com](http://www.heyco.com).

## Material

Nickel-plated Brass w/polyamide PA 6 finger insert, TPE Sealing Gland and Buna-N O-ring

## Certifications

Recognized under the Component Program of Underwriters' Laboratories File E51579 to both Canadian and U.S. requirements

VDE Approved

## Temperature Rating

-40°F (-40°C) to 212°F (100°C)

## IP Rating

IP 68
