

Blackburn®

Cross Tap Clamps

Type XT — Clamp for Tee Tap, Cross, Parallel and End-to-End Connectors

- A multi-purpose connector; castings of copper alloy; bolts of silicon bronze
- Design allows for free wrench rotation which speeds installation
- For tin-plated style add suffix P to Cat. Number—e.g. XT12P

Cat. No.	Conductor Range (AWG or KCMIL)				Conductor Diameter				Dim. (in.)			Bolt Size

Blackburn®

Dead-End Clamps

Type DLC—Single U Bolt Aluminum Fittings

- Top and bottom pressure pads cast of high strength, heat treated, aluminum silicon alloy
- Extra long separating spacer of highly conductive aluminum; spacer interlocks with U bolt—will not drop out
- Spring action counteracts cold flow
- No special tools required for installation
- Suitable for deadend loop connections
- Hardware of high-strength galvanized steel
- For use on copper, aluminum and ACSR conductors
- Order pre-filled with oxide inhibitor (suffix 9) for use on aluminum to copper

Cat. No.	Conductor Range				Conductor Diameter				Dimensions (in.)

Hot Line Clamps

MECHANICAL CONNECTORS

Type HLC—Hot Line Clamps (Protected Thread)

- Eye-bolt coated with high temperature grease, assuring easy turning in all weather conditions
- Available prefilled with oxide-inhibiting Contax and individually packaged; add suffix 9 to Cat. Number
- HLC2108 Series is for 2/0—8 main line conductor
- HLC3974 Series is for 397.5 KCMIL—6 main line conductor

Blackburn®

Hot Line Clamps

Type PGH—Center Bolt Parallel Groove Hot Tap Clamps

- Incorporates the superior design features of parallel groove clamps, time-proven for their reliable performance
- Protected threads; wide temperature range lubricant prevents seizing
- Tap wire positively secured to clamp during installation and removal by hex head bolt and pressure pad; main and tap clamped securely as clamp is tightened
- Available prefilled with Contax, add suffix 9
- Copper clamps are for use on copper conductors only

Multi-Bolt Connectors

Types 4B, 6B—One Piece Multi-Bolt Connectors

- Cap and pressure plate of cast aluminum alloy; spacer of high conductivity aluminum
- High strength aluminum alloy bolts and lock washers prevent seizing
- One piece construction eliminates loose parts during installation

- For use on copper, aluminum and ACSR conductors
- Factory filled with Contax oxide inhibitor

AMT Connectors

AMT Connectors

The high quality and built-in flexibility of the new Blackburn® AMT Connectors reduce the cost of field installations on splices, taps, and terminations. They're easy and quick to install, and provide superior insulation that lasts the life of the connection.

Features and Benefits:

- PVC insulation eliminates insulation failures and reduces outage costs
- UV resistant material
- Compact design provides space efficiencies
- UL Listed.

Copper Mechanical Connectors

- For copper conductors
- Screws are plated steel
- Compact design
- Add suffix P to cat. number for tin plating
- One-piece construction for strength and durability
- Excellent for confined quarters
- Cat. Nos. L400 and L650 are cast from high strength bronze alloy
- Cat. Nos. L35, L70, L125 and L250 are cold forged from pure electrolytic copper with 99% conductivity

Type L—Single Conductor, Two Hole Mount

Anti-Rotational Connector

Anti-Rotational Connector

Thomas & Betts' new Anti-Rotational Connectors are designed with a rib on the bottom that keeps the connectors from turning, so there's no need to apply excessive torque and there's no danger of loosening connectors. The unique "no turn" rib provides a secure connection that eliminates conductor pinching that results from connector movement.

The new "no turn" design feature solves a unique problem for electricians and installers. Larger conductors tend to get damaged in overtorque conditions,

and connectors are prone to loosen in applications where there is vibration such as motor loads. Inspectors and local standards boards are requiring electricians and installers to make provisions to eliminate these conditions, and Blackburn® Anti-Rotational Connectors are the solution.
