Your search criteria matched only one product, shown below

## QPPEDBDW10

- Facilitate quick and easy connection and disconnection of multiple patch cords, simultaneously to a variety of switches, reducing time and cost associated when installing and maintaining structured cabling links
- Exceed requirements of ANSI/TIA-568-C.2 Category 6A, IEEE 802.3an-2006, and ISO 11801 Class E<sub>A</sub> channel standards
- Exceed requirements of ANSI/TIA-568-C.2 Category 6A and IEC 61156-5 Category 6A component standards
- Constructed for Category 6A, 24 AWG solid shielded cable and TX6™ PLUS Modular Plugs
- Plug meets all applicable ANSI/TIA-968-A requirements and exceeds IEC 60603-7 specifications
- Meet requirements of IEEE 802.3af and IEEE 802.3at for PoE applications
- Each patch cord is 100% performance tested and wired T568B
- Third party tested to Category 6A component compliance
- Integrated finger latch design enables quick, one-handed installation and removal from switch
- Low profile design allows assemblies to be installed side by side or stacked on top of each other providing maximum port density in high density installations
- Marker ties enable easy identification in high density installations and provides additional level of security when used with optional lock out device
- Labels on patch cords provide identification of performance level, length and quality control number
- Optional removal tool (QPPRT) facilitates removal of individual cable links without disrupting service to other network connections
- Optional lock in device (QPPLD6-X or QPPLD8-X) prevents unauthorized removal of patch cords from the switch for an additional level of security
- Cable available in blue or white; plug packs available in blue or white

|                              |                                                                                                                                                      |
|------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Part Number                  | QPPEDBDW10                                                                                                                                           |
| RoHS Compliancy Status       | RoHS directive is not applicable                                                                                                                     |
| Note                         | Intended for use in fixed installations which are outside the scope of RoHS                                                                          |
| Part Description             | QuickNet® Plug Pack Cable Assembly made with Category 6A, DR blue cable with a 8-pack white plug pack on one end and modular plugs on the other end. |
| Product Type                 | Plug Pack Cable Assembly                                                                                                                             |
| Color                        | White Plug Pack                                                                                                                                      |
| Length (ft.)                 | 10                                                                                                                                                   |
| Length (m)                   | 3.05                                                                                                                                                 |
| Cable Color                  | Blue                                                                                                                                                 |
