

Tap Covers

1-12

Description

These tap covers are used to electrically insulate AMPACT taps from neighboring taps, exposed ground conductors, or nearby grounded structures in 600-volt maximum, insulated-conductor overhead applications.

Selection Information

Tap Size & Color Code	Style	Strip Length*	Cover Part Number (Black)
Type II (White)	Hinged Top	3-1/4 82.6	83364-1
Medium 266.8 & 350 (Blue)	Hinged Top	4-1/4 108	602080
336.4, 477 & 556.5 (Yellow)	Hinged Top	6 152	602107
795 & 1033.5 (Yellow)	2 Half Sections	6-1/2 165	602284†

\*Nominal strip length of insulation on through and tap conductors

†Two each required for assembly
