Introduction

Dear customer,

We are proud to present to you our wide range of top quality supplies. In manufacturing these supplies we have drawn on Lexmark's know-how and technology leadership in laser, inkjet and dot matrix printers.

Quality has always been of utmost importance to Lexmark. Our print cartridge manufacturing process has over 300 steps, and we were granted more than 1,500 patents on Lexmark print cartridges, components and printing systems.

At Lexmark, we strive to protect the environment. This commitment starts at the top and extends throughout our organisation. It is a never-ending journey involving Lexmark's processes, product development, manufacturing, sourcing, and ultimately our customers and the way they use, reuse and co-operate in Lexmark's efforts to recycle our products.

Product designs are always being evaluated to minimize excess or unnecessary parts. High-yield cartridges will contribute to decreasing replacement, and for you it means streamlined stock management and less printer intervention. In a constant effort to protect the environment, our customers are asked to return their empty cartridges via postal prepaid envelope, or for bulk consumption, via pick up service.

More than 11,000 Lexmark employees around the world are committed to our vision of "customers for life". Our partners and customers can testify we market high quality products that provide superb value and trouble-free printing. Because we know quality and cost control is key to your business success Lexmark is willing to prove its commitment to your goals and fulfil its vision of making "customers for life".

Tony Hall
General Manager of EMEA Business Supplies

> Supplies for Lexmark All-in-One Products

Lexmark's inkjet cartridges : no tricks, just technology! Lexmark printhead technology has important advantages over competitive technologies, including higher ejection pressure and greater packing density for a more compact design. Changing a Lexmark print cartridge is like getting a brand new printer !

** C752L and C760 are compatible with Low Yield cartridges only.

(1) Including coating roll.

(2) Actual number of pages will vary, depending on individual customer usage.

(3) At continuous printing.

(4) Including fuser roll.

> Supplies for Lexmark Inkjet Printers

While it is commonly believed that output is determined by the printer alone, at Lexmark the print cartridge is a carefully engineered device that is designed to fit perfectly into the whole printing process, for superior print quality.
