CERTI-SEAL Coax Splice Closure

Water-Resistant Coax Splice Kits and Covers

CERTI-SEAL coax splice kits and covers are designed for direct buried splicing of Series RG-59 and RG-6 coaxial cables. These quickly installed, low-cost kits and covers can be used to repair damaged coax cable. The water-resistant gel-filled construction seals out environment, withstands 14 days immersion without signal degradation, and withstands extreme temperatures. One-piece housing snaps on and requires no special tools.
