Connection options: A model with a QD requires a mating cordset (see page 442).

Integral QD models are listed. For 2 m cable, omit suffix Q from model number (example, K50LDGRYP).

QD models (dc only): For 150 mm PVC pigtail with QD, replace Q with QP in model number (example, K50LDGRYPQP).

† Optional sun shield model K50DS is available for enhanced visibility in bright sun.

* Contact factory for other colors and color combinations.

3-color models: 6 LEDs per color

1-color models: 18 LEDs per color

** 1-color dc models are PNP/NPN selectable, depending on hookup.
