

Twin BNC Connectors

Product Facts

- **Crimp connectors require only one-stroke crimping of both conductors, plus braid and cable support**
- **Lower installed cost with one-stroke crimp**
- **Reduced noise levels because of Tyco Electronics solderless crimping techniques**
- **Captive inner contact stability**
- **No danger of heat damage to coaxial cable**
- **Ease of inspection**
- **Listed under the Component Program of Underwriters Laboratories Inc., File No. E81956** 
- **PC Board soldered connectors are recognized under the Component Program of Underwriters Laboratories Inc., File No. E81956** 
- **Certified by Canadian Standards Association**  **File No. LR 7189**

The Twin BNC Connector is a quick connect/disconnect, weatherproof connector designed in accordance with MIL-C-39012 to meet the stringent requirements of MIL-STD-1553 Multiplex Data Bus.

These twin coaxial cable connectors are a unique development by Tyco Electronics which has resulted in the production of high level RF components. Termination of these connectors to twin conductor cable is made with Tyco Electronics exclusive one crimp method which simultaneously terminates inner conductors, outer braid and cable support with one stroke of the matching Tyco Electronics tool.

These rugged connectors accommodate today's most commonly used twin conductor cable sizes.

Materials

Brass—QQ-B-626
Beryllium Copper—QQ-C-530
TEFLON—MIL-P-19468
Polypropylene—General purpose
Copper, Annealed—QQ-C-576
Phosphor Bronze—QQ-B-750
Silicone Rubber—ZZ-R-765

Plating

Silver—QQ-S-365
Nickel—QQ-N-290
Tin—ASTM-B-545

Packaging—All connectors are packaged individually unless otherwise noted.

Electrical Characteristics

Nominal Impedance—Non-constant
Working Voltage—500 volts rms sea level
Insulation Resistance—5000 megohms min.
Dielectric Withstanding Voltage—1500 volts rms sea level

Mechanical Characteristics

Mating/Unmating—Bayonet lock-quick connect/disconnect
Cable Attachment—Crimp type - Simultaneous center and braid
Coupling Nut Retention—100 lbs. [444 N] min.
Cable Retention—25 lbs. [111 N] min., RG 108A/U cable
Durability—200 cycles per MIL-C-39012

Environmental Characteristics

Temperature Range—-55°C to +85°C
Vibration—MIL-STD-202, Method 204, Condition B
Shock—MIL-STD-202, Method 213, Condition I, 100 G's
Salt Spray—MIL-STD-202, Method 101, Condition B
Temperature Cycling—MIL-STD-202, Method 102, Condition C
