

Features

- Provides physical protection, with conductive material providing reliable path-to-ground
- Efficient means of transporting items to the assembly area, and empty totes back to the store room for refilling
- Extremely durable; includes steel reinforcing frame and rolled over side construction (double thickness)
- Ships assembled
- Conductive 1×10^2 to $< 1 \times 10^5$ ohms material provides reliable path-to-ground
- Superior strength and durability; made from extruded, high impact polypropylene materials
- Chemical and moisture resistant
- Ideal for use where corrugated and/or paper products cannot be used
- Economical alternative to injection molded products
- Reusable, ensuring best value*
- Made in America
