

HOMECARE GUIDE

Face to Face...

With the introduction of Henry with his happy but cheeky little smile more than 25 years ago, we have now come to truly understand just how much our customers appreciate the unique individual character concept.

We have also learnt that it is not simply the character that has endeared the Henry product to the customers but more so the full, and ever improving, professional specification of the machine's design.

We must all be reminded that the Henry machine and concept was created for professional users in the first instance ... being used in hospitals, hotels, shops and schools, buses and boats, trains and planes and it was from this beginning that his reputation grew and his fame spread to captivate the homeowner demanding long life and improved performance.

Our daily lives are inundated with a whole range of inanimate appliances, the washing machine, dishwasher, cooker, refrigerator and we certainly would not be without them. But then there is Henry, not to mention Hetty the girl Henry and Harry the special pet owner's Henry. Put these together with James, Charles and George and you have a whole team of helpers, each with a smile on their face, which really does say "Come on, let's get the job done together, it won't take long!" Be it cleaning the house, the car, the carpets or clearing out the loft, with one look that happy little smile lets you know that it's all under control.

Handy Storage in Head

Cable Store

James JVP180A AutoSave

The new James retains its classic shape and unique personality to which we have added a new cable tidy feature, our new EcoTwin long life motor and the AutoSave energy conservation system.

James is now, without doubt, one of the most frugal, professional cleaners available, with power saving in excess of 50% over previous models, resulting in quieter operation and longer life.

The AutoSave system means that every time you switch on you will automatically start on the economy setting, only if more power is needed to cope with extra dirt do you need to push the red switch to operation in the Hi mode. When you see the red light you know you are in the Hi mode so when you go onto hard floors, or deep carpets, or don't need maximum power, push the red switch again and you are back to economy.

Big capacity, giant HepaFlo filtration and the new EcoFlo floor tool, gives you almost the best of everything. Easy and efficient to use, and easy and clean to empty, this is a machine that will do just about everything you would expect from a true professional.

Motor	Power	Airflow	Suction	Capacity	Range	Weight	Dimensions
800W/ 500W	230V AC 50/60Hz	30 L/sec Hi-Flo	2000mm Hi 1300mm Lo	8L	26.8m	5.5Kg	340 x 340 x 340mm

Also available in 115V/120V specification. For additional accessories see page 14

Kit-A1

Henry HVR200A AutoSave

Full Twinflo' 2-stage professional motor giving exceptional performance coupled with our unique AutoSave technology. The 10-metre cable storage and rewind system is a work of art, trouble free and spring free, and it keeps everything neat and tidy. The generous Tritex filter system makes sure that what goes in stays in, and giant high efficiency HepaFlo dust bags are really clean and easy for emptying.

Twinflo'

The AutoSave system means that every time you switch on you will automatically start on the economy setting, only if more power is needed to cope with extra dirt do you need to push the red switch to operate in Hi mode. When you see the red light you know you are in the Hi mode so when you go onto hard floors or deep carpets or don't need maximum power, push the red switch again and you are back to economy.

The standard accessory kit is fully comprehensive and even the tubes and some of the tools are stainless steel.

A true professional in every sense of the word but never without that famous smile, loved and appreciated by users the world over... ask any Henry owner.

Hetty HET200A AutoSave

Hetty (short for Henrietta) is not just a pretty face, she has all the Henry features and specification: giant Twinflo', long life, 2-stage motors, coupled with our unique AutoSave technology, high efficiency filtration and HepaFlo' dust control. If Henry's got it, so has Hetty, but now she will even flutter her eyelashes!

Twinflo'

The AutoSave system means that every time you switch on you will automatically start on the economy setting, only if more power is needed to cope with extra dirt do you need to push the red switch to operate in Hi mode. When you see the red light you know you are in the Hi mode so when you go onto hard floors or deep carpets or don't need maximum power, push the red switch again and you are back to economy.

Like Henry himself, Hetty has a comprehensive, high performance, long life, accessory kit and a full range of optional accessories which add even further to her versatility.

Now you have a choice of machine, Henry or a girl Henry called Hetty.

Motor	Power	Airflow	Suction	Capacity	Range	Weight	Dimensions

Microfresh Fliter

AutoSave Switches

HairoBrush Power Brush

Kit-H1

Harry HHR200A AutoSave

Meet Harry, the new member of the family, designed and incorporating important extra features for pet loving people, as well as all the usual Henry features, power, performance and AutoSave energy conservation system.

The AutoSave system means that every time you switch on you will automatically start on the economy setting, only if more power is needed to cope with extra dirt do you need to push the red switch to operation in the Hi mode. When you see the red light you know you are in the Hi mode so when you go onto hard floors, or deep carpets, or don't need maximum power, push the red switch again and you are back to economy.

Where homes have pets there are two major differences over non-pet households, hairs and odours, and Harry is equipped to deal with both.

The MicroFresh activated charcoal filter has a large surface area and certainly minimizes those age old odour problems.

The unique Numatic dual purpose HairoBrush has been designed so that it can give excellent pick up performance both on the floor and, equally, as a hand brush for use on upholstery and fabrics.

Take the machine specification, the power, the performance and the accessories and Harry will truly be the new pet owner's friend.

Kit-XX1

Henry Xtra HVX200A

Henry Xtra is, in every way, a true Henry with all the standard features and more.

The giant TwinFlo 2-stage long life motor, is coupled to our unique AutoSave energy conservation and NST sound reduction systems ensuring exceptional performance, maximum economy and ever lower sound levels.

Twinflo

The AutoSave system means that every time you switch on you will automatically start on the economy setting, only if more power is needed to cope with extra dirt do you need to push the red switch to operate in Hi mode. When you see the red light you know you are in the Hi mode so when you go onto hard floors or deep carpets or don't need maximum power, push the red switch again and you are back to economy.

The standard accessory kit includes a full length 2.5m double swivel hose, stainless steel tube set, combination nozzle with stainless steel long life carpet base plate and a full set of extra tools for upholstery, fabrics, high level dusting, etc.

In addition the Xtra specification includes two further accessories that make all the difference, the unique Numatic AiroBrush provides a superb level of carpet care and the hard floor brush is a real boon when cleaning extensive hard floor surfaces of any type.

All in all this is Henry raised to an ever higher standard.

Motor	Power	Airflow	Suction	Capacity	Range	Weight	Dimensions

Henry Micro HVR200M-22

There are Henrys here and Henrys there, you'll find dear Henry everywhere, but so will you find dust related allergies; purported to affect between 20% and 30% of the population, especially the very young and the elderly.

Henry Micro is to the full Henry specification with the professional Twinflo vacuum motor, Hi-Lo control for different surface applications, a 10-metre cable rewind and storage system: but to this has been added our exclusive Microtex filtration system approved to the highest allergen standard by the British Allergy Foundation using out high efficiency HepaFlo dust bags.

In every way fast and friendly, never without his cheeky smile, Henry Micro comes to the aid of sufferers everywhere.

REMEMBER you can always add a Microtex filter to any standard Henry to upgrade filtration to this exceptional standard, if required.

Also available in 115V/120V specification. For additional accessories see page 14

Pail-Style Emptying Handle

Safety Float Valve

Stainless Brush Plate

Wet Pick-Up Nozzle

Kit-A21A

Charles CVC370-2

You want a vacuum cleaner that is totally without compromise, be it for wet or dry use, and that's exactly what you get. One minute (or most of the year in the majority of cases) Charles will be up to his neck in dust and dirt, keeping everything spick and span, and then suddenly the call arrives and he's expected to unblock the sink or dry the floor. Well, it's no problem with Charles, he has our full Twinflo' motor and performance to give you exactly what you need.

Big filters and disposable HepaFlo' dust bags for dry use and a safety float valve for wet pick-up.

Tubes are lightweight aluminium and will never rust. Two floor nozzles, one for wet work and a superb combination nozzle for carpets and hard floors, and even that has a stainless steel high efficiency carpet plate. Add to this three smaller tools and you are ready to tackle almost anything that comes along, be it floors or floods, corners or curtains, you are in control.

Having a Charles about the house is like having an insurance policy but without the small print.

Powerflo' Pump System

Safety Float Valve

See-Thru Extraction Pick-Up

Kit-A26A

George GVE370-2

The true "all in one" machine that is totally at home be it in the wet or the dry. This classic "all in one" is genuinely the family friend, dry vacuuming, wet vacuuming, scrubbing and drying hard floors, deep cleaning the carpet, cleaning the upholstery, unblocking the sink, you name it, George is your man.

The combination of our highly efficient Twinflo' bypass vacuum motor and our powerflo' pump system provides you with professional cleaning standards, any time, anywhere, ensuring exceptional results.

The George design is in itself based entirely on our Cleantec professional range of machines; designed to work extensively and for long hours and functioning to a professional standard.

Twinflo'

When it comes to dry vacuuming you have big filters, use of disposable HepaFlo' dust bags, and you have a superb combination floor nozzle. In the wet mode, a simple exchange of the dry filter for the safety float valve allows any number of wet tasks to be achieved.

So there you have it wet, dry, carpets, hard floors, upholstery, you name it, George is your man.

Motor	Power	Airflow	Suction	Wet Capacity	Dry Cap.	Extraction Capacity	Range	Weight	Dimensions

NyloStripe Microfibre Mop Head

Foot spray operation

Henry/Hetty SprayMop *HM40*

The Henry and Hetty Spraymops combine all the real advantages of Microfibre floor mops and can be used dry or wet, with or without cleaning agents or disinfectant. Their onboard liquid dispenser, foot or hand operated, ensures that the mop head can be maintained in a damp condition at all times allowing larger surfaces to be thoroughly cleaned without the use of a bucket.

In this day and age there is a vast range of hard floor surfaces: quarry tiles, PVC tiles, linoleum and now a vast range of laminate surfaces all of which need a fast and friendly means of maintenance. A good floor needs to be clean and look clean, on that I think we can all agree!

The Henry and Hetty Spraymops are like Henry and Hetty themselves, born of the professional market, used extensively for spot cleaning and maintenance in hotels, restaurants, shops and offices and the like, where cleanliness and looking well cared for is all important!

This is genuinely floor maintenance taken into the 21st century with a single leap. With a full 40cm cleaning width you will never look back... and floors will never look better.

Homecare Optional Accessories

Each model within the Homecare has its own unique specification but, by virtue of our standardized design, there is full interchangeability of parts allowing retrofit upgrades as needed.

Hepaflo' Dust Bags

All Homecare machines use our high efficiency, giant HepaFlo' dust bags ensuring excellent performance and clean and simple emptying.

1 Hepaflo' NVM-1CH 10 per pack (604015)

Fits all James, Henry, Hetty & Harry models.

2 Hepaflo' NVM-2BH 10 per pack (604016)

Fits all Charles and George models for dry use only.

Interchangeable filters

For Homecare models there are optional filters to achieve a range of filtration requirements.

3 Microfresh Odour Control Filter (604170)

The 3-layer Microfresh filter system enhances filtration standards to 98% at 0.5 micron but equally important, it embodies a giant activated charcoal filter membrane sandwiched between twin Tritex filters, providing an effective odour control system... standard in the Harry specification model only ...but can be easily retro fitted to all Henry, Hetty and James models.

4 Microtex Filter (604311)

This multilayer high efficiency filter has been developed for the Henry Micro machine and when used in conjunction with the Hepaflo' NVM-1CH dust bags (above) will upgrade the machine to the full British Allergy Foundation approval standard (Dry Use Only).

6

With each Homecare model we have provided a comprehensive accessory kit to compliment the machines function and performance. To allow machine kits to be changed or upgraded there are a number of optional extras that may be selected.

6 Airo Brush Red (601226), Black (601227)

The Airo Brush is an exceptional floor nozzle developed to provide quick and efficient carpet care. This is especially effective for the removal of threads, dog and cat hairs... grooms the whole carpet and will allow power brush results where uprights can rarely go. A truly high performance Airo Power Brush, red for Henry Range, black for other models. (Standard on Henry 'Xtra)

6

7

7 HairoBrush (601228)

The unique Numatic dual purpose HairoBrush has been designed so that it can give excellent pick up performance both on the floor and, equally, as a hand brush for use on upholstery and fabrics. Slightly smaller than our Airo Brush allowing for easier access into those small nooks and crannies where pet hairs can so frequently blow. Truly a pet-owners favourite.

7

8 Hard Floor Brush (601428)

A full 300mm twin brush floor nozzle with dual rubber wheels for quick, easy and efficient cleaning of all hard floor surfaces. Also provides excellent results on low profile fabric floor coverings. Suitable for all models.

8

8

9 Microlight Tube Set (601026)

Many of our accessory kits include stainless steel tube sets, but for those wishing for

9

something lighter we have a full tube set manufactured in aluminium, reducing the weight by 50%. (Standard on James and Charles)

10 Microlight Extension Tubes (601024)

If you find yourself cleaning at high levels regularly, then the Microlight extension tubes will prove to be of great benefit being 50% lighter than stainless steel. Each section is 422mm in length.

10

11

11 Stainless Steel Tube set (601023)

Long life stainless steel tube sets are in a class of their own but a little heavier than aluminium.

11

12 Stainless Steel Extension Tubes (601008)

Where longer reach is required additional 422mm extensions are available. (See also **10** Aluminium)
