

Wiha. Premium Tools
for Professionals.

Wiha SoftFinish® electric. The Safe & Comfortable Insulated VDE Screwdriver.

1000 V
EN 60900

*Insulation moulded
directly onto blade
offers maximum safety.*

*Ergonomic handle
geometry with
SoftFinish® surface
gives highest
possible comfort.*

Applications on live equipment are subject to very special requirements. The focus is on absolute user safety and Wiha demonstrates this with a wealth of details.

The high quality blade insulation is moulded directly onto the blade and therefore guarantees safety when working on live equipment up to 1500 V DC or 1000 V AC. To maintain this safety, each screwdriver of the SoftFinish® electric series is individually tested in a water bath at 10.000 Volts according to DIN EN 60900.

The roll-off protection and the special handle geometry offer optimum handling and electrical safety, even in critical applications. Furthermore, the exclusive SoftFinish® handle shape allows maximum user comfort.

SoftFinish® electric Advantages:

- Insulation moulded directly onto blade
- Tested to the professional GS Standard
- Safety when working up to 1000 V AC and 1500 V DC
- Each screwdriver is individually tested in a water bath at 10.000 Volts according to DIN EN 60900 (IEC 900)
- Multi-component SoftFinish® handle provides maximum user comfort
- Ergonomically perfect handle design
- Imprinted screw symbol on handle end for fast identification
