

Florafree® Mild Lotion

Mild 'frequent use' antibacterial lotion soap with triclosan.

Usage: Use to remove light to medium soiling in low risk food handling environments, or to complement other Florafree skin hygiene products in high risk areas.

Features & Benefits

Frequent Use – Specially formulated using a blend of natural soap, conditioner and mild surfactants making it ideal for frequent use and encouraging greater skin hygiene.

Residual Antibacterial Activity – Frequent use encourages a build-up of germicide on the skin and increases antibacterial efficiency.

No Perfume – Contains no perfume to taint food, proven by many years of successful use in the Food Industry.

Mild Formula – Trans-Epidermal Water Loss Tests show no negative impact on the barrier function of the skin during regular, daily use.

Antibacterial Activity – Contains triclosan, a wide spectrum germicide which combats commonly found food poisoning bacteria such as E. coli, Salmonella and Listeria.

Added Conditioner – Helps replenish the natural oils and moisture in the hands lost as a result of washing.

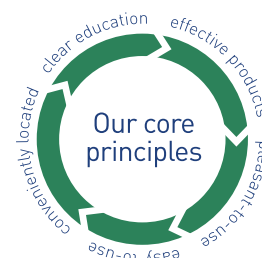

Hygienic – Available in sealed cartridge formats to prevent cross-contamination.

Dermatologically Tested – Formula has been tested to prove it is non-irritant.
