

- Stripmasters give quick, clean, repeatable insulation strips for a wide range of wire
- Clean and complete removal of insulation without damaging the conductors

Stripmaster - Strips most common plastic and rubber insulations.

Stripmaster Lite - 1/3 of the operating force of the other tools, lighter and smaller, for common plastics and rubber.

Custom Stripmaster - Unique blade design with counterbored recesses sized to the insulator and inner stripping hole sized to the conductor preventing the blade touching the conductor. In certain military and high reliability applications the integrity of the conductors is mandatory.

Wire Stop - Is an accessory that fits all tools and gives repeatable strip lengths.
