## Product Datasheet Globe Energy Saving Lamps

|                |                               |
|----------------|-------------------------------|
| GLOBAL 20W B22 | Globe Lamp 168mm 20w BC (B22) |
| GLOBAL 24W B22 | Globe Lamp 178mm 24w BC (B22) |
| GLOBAL 20W E27 | Globe Lamp 168mm 20w ES (E27) |
| GLOBAL 24W E27 | Globe Lamp 178mm 24w ES (E27) |

Available as:

- Type: Warm light or Daylight
- Wattage: 20W and 24W
- Fitting: BC (B22) and ES (E27)

### Features

- Energy Rating 'A'. Up to 80% energy saving compared to traditional bulbs by using less electricity to reach the equivalent brightness:
  - 20 WATTS = 100 WATTS for a conventional bulb
  - 24 WATTS = 120 WATTS for a conventional bulb
- Lamp life up to 8000 hours (8 times longer than conventional GLS lamps)
- Not suitable for dimming, electronic switches, photocells, timing devices, dusk to dawn sensors.
- Instant start up
- No flicker and no filament to burn out!
- Switching does not reduce lamp life
- Excellent colour render
- RoHS Compliant
