Inventory Control

Stock Control Solutions for Small Businesses

Inventory Control

Get in control of your stock with Wasp Inventory Control – the complete stock management solution for small businesses. Wasp Inventory Control offers small businesses the ability to accurately track stock, without the complexity or expense of an enterprise solution.

With Wasp Inventory Control, it's simple to track and manage stock at multiple locations and sites. Easily create new stock items, or import existing supplier and stock data using the Import Wizard. Then create barcoded labels and tags for fast, efficient stock tracking. Inventory Control tracks when stock is added, removed, transferred, and checked-in or out, so inventory records are always accurate.

Pair Inventory Control software with a mobile computer to manage your stock on-the-go. Inventory Control Standard allows you to sync updated stock data from the mobile computer to your PC using a cable, while Inventory Control RF Professional and RF Enterprise give you the power to instantly update records using a mobile computer with 802.11 b/g/n wireless communication.
Inventory Control gives you powerful perspective on your business. Access over 60 business management reports, including total cost of inventory, inventory aging, transaction history, and more. Use Inventory Control's business alerts to receive notification of low stock levels, and quickly email purchase orders to your suppliers, ensuring that the stock you need is on hand. Wasp Inventory Control delivers the tools you need to ensure that your business is running smoothly, in an intuitive, easy-to-use interface.

Wasp Inventory Control is ideal for tracking stock in many applications, including:
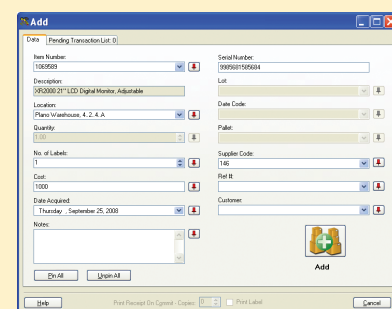

- Warehouses
- Light manufacturing & distribution centers
- Retailers

- Stock rooms & supply closets
- Mobile trucks carrying stock
- Installation contractors or any business that buys, stocks, and sells parts and products
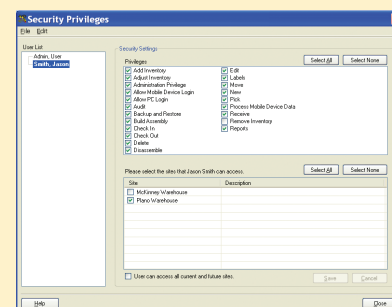

▶ Manage your inventory

▶ Access pre-built management reports

▶ Add items to inventory

▶ Feature-based security

Inventory Control RF Professional & RF Enterprise

Access real-time inventory data

Update stock data from anywhere in your network with Inventory Control RF Professional and RF Enterprise. You can create, edit, move, or remove stock on-the-go with your mobile computer, and Inventory Control's main database is instantly updated. Wireless communication ensures that your inventory data is always accurate – so you know exactly what's in stock and where items are located. Use Inventory Control RF with your organization's existing 802.11 b/g/n network, or add the Unifi™ wireless access point solution.

:: INVENTORY CONTROL RF PROFESSIONAL FEATURES

Includes all of the features available in the Standard edition, PLUS:

- ▶ Wireless communication enables real-time data updates from your warehouse, stock room, or supply closet
- ▶ Access 20 additional business management reports
- ▶ Create kits including multiple items for ease of use
- ▶ Group components and raw materials to create a finished good for stock using the Assembly function
- ▶ Generate pick orders and purchase orders
- ▶ Manage multiple suppliers per item
- ▶ Track non-inventory items, including supplies
- ▶ 5 PC client licenses

:: INVENTORY CONTROL RF ENTERPRISE FEATURES

Includes all of the features available in the Standard and RF Professional editions, PLUS:

- ▶ Unlimited PC client licenses
- ▶ 5 mobile computer licenses
- ▶ Ability to use with Microsoft SQL server (recommended)

Inventory Control RF Professional Software
5 PC Client Licenses, 1 Mobile License • Part Number: **633808524241**

Inventory Control RF Enterprise Software
Unlimited PC Client Licenses, 5 Mobile Licenses • Part Number: **633808524289**
