

EA3200 series Absorber

*Features: Thin, lightweight and flexible. Easily applied to flat surfaces.

Frequency range: 10MHz ~ 24 GHz
Can be provided in rolls, sheets or cut to size
Eliminates unwanted RF energy at the source
Can be die cut into complex shapes
Applies with acrylic non-conductive PSA
5 RoHS compliant materials to choose from

Product Data

Product number	Frequency range	Thickness (mm)	Surface Resistivity (Ω)	Hardness (Shore A)	Density (g/cm ³)	Thermal Conductivity (W/m.k)
EA3200	800MHz - 4 GHz	.005(.14)	Min 1.0 x 10 ⁷	75	4.1	0.73
Sheet size (inches)	8.20	11.72				
(mm)	210	300
