MH Ceramic Capacitor

Lead Free Ceramic Capacitor in Molded SM Leadframe

The MH components use a X7R high capacitance value ceramic capacitor in a surface mount precision made moulded case.

The MH capacitor combine the ceramic attributes of very low ESR, non-polar construction, excellent high frequency behaviour and voltage stress capabilities and wide temperature range; with the enhanced mechanical protection of a moulded case. The moulded case is UL94 V-0 flame retardant and the MH is RoHs and also AEC-Q200 compliant.

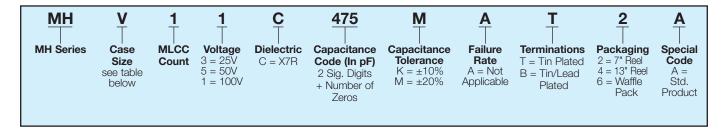

The MH range provides a lead frame solution to customers who have previously been unable to use large case ceramic capacitors because of mechanical stressing concerns.

For those applications where a tin termination is not acceptable, a Tin/Lead termination is available.

FEATURES

- Capacitance: 2.2u F 22 μF
 MHs are AEC-Q200 compliant
- Voltage Range DC: 25V 100V
- Enhanced thermo mechanical stress resistance.

HOW TO ORDER

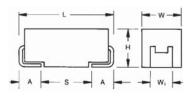

MH X7R RANGE

	Cap µF	25V	50V	100V
225	2.2			
335	3.3			
475	4.7			
685	6.8			
106	10			
156	15			
226	22			

"V" CASE DIMENSIONS: millimeters (inches)
